

## Open Dataset / Portal Examples

© <https://data.jima.me/>

### 1. Data.gov

- Focus: A broad array of U.S. government data
- How to Interact: Use the search bar or browse by category; data often in CSV, JSON formats.
- Website: [Data.gov](https://data.gov)

### 2. World Bank Open Data

- Focus: Global development data, including indicators on poverty, education, and health
- How to Interact: Search by country or indicator; offers API for direct data queries.
- Website: [World Bank Open Data](https://data.worldbank.org/)

### 3. European Data Portal

- Focus: European public datasets, covering regions, countries, and cities
- How to Interact: Utilize the search function; data is downloadable in multiple formats.
- Website: [European Data Portal](https://data.europa.eu/)

### 4. Kaggle

- Focus: Various datasets for machine learning and statistics, often contributed by the community
- How to Interact: Sign up for a free account; browse datasets and download as CSV or other formats.
- Website: [Kaggle](https://www.kaggle.com/)

### 5. OpenWeather

- Focus: Weather data
- How to Interact: Register for an API key to make HTTP requests for weather data in JSON format.
- Website: [OpenWeather](https://openweathermap.org/)

### 6. Centers for Disease Control and Prevention (CDC)

- Focus: Public health datasets, including disease statistics and health indicators
- How to Interact: Use the CDC's WONDER tool for querying databases and generating tables.
- Website: [CDC Data & Statistics](https://www.cdc.gov/data/)

### 7. United Nations Data

- Focus: Global datasets on a variety of subjects like economics, population, and gender
- How to Interact: Browse through categories or utilize search functionality; multiple file formats available.
- Website: [UN Data](https://data.un.org/)

### 8. Google Public Data

- Focus: Various public datasets, including economic and social data
- How to Interact: Search for data through the Google Public Data Explorer tool; visualize or download.
- Website: [Google Public Data](https://www.google.com/publicdata/)

### 9. U.S. Census Bureau

- Focus: Demographic, economic, and social data related to the United States
- How to Interact: Use the data.census.gov platform for exploration and download in various formats.
- Website: [U.S. Census Bureau](https://data.census.gov/)

### 10. Awesome Public Datasets

- Focus: Diverse datasets contributed by the GitHub community
- How to Interact: Browse GitHub repositories containing datasets; usually in CSV, JSON, or XML formats.
- Website: [GitHub](https://github.com/awesome-public-datasets/)
